

DISCRIMINANT

Native of roots

① $b^2 - 4ac > 0$ 2 distinct and real roots

② $b^2 - 4ac = 0$ 2 real & equal roots

③ $b^2 - 4ac < 0$ no real roots

Equation is always positive / negative

real roots

Intersections

2 intersections

1 intersection

no intersection

2 distinct real roots

2 real and equal roots

no real roots

$D > 0$

$D = 0$

$D < 0$

"intersects, meets at 2 points"

"tangent"
